

## Tree-Rolls® Premium Hemp Products

Our brand is the culmination of years of experience and a devotion to creating products that refuse to compromise. Staying true to our roots, we reside in a place where modern demands meet the serenity and natural wonder of the great outdoors. Products that stem from the inspiration of those who demand premium quality, while branching out to restore the environment and help those in need. Wherever you find your escape and inspiration, Tree-Rolls® products are crafted to heighten and enhance those experiences. Here are a couple reasons that people love our hemp goods.

### Premium Hemp CBD Flowers

Tree-Rolls® products are made with organically grown, premium quality hemp flowers, rich in CBD and a full-spectrum of hundreds of other naturally occurring cannabinoids. All of our hemp flowers undergo a slow curing process to preserve trichomes, terpenes and cannabinoids - resulting in a smooth, flavorful & more potent end product. We hand-select all of our USA-grown hemp flower from sustainable farms whose growers take pride in their crops, producing beautiful, trichome packed buds that yield delicious flavors and aromas. All Tree-Rolls® hemp is tested by third party laboratories, ensuring each product contains under 0.3% THC.

### Sustainability & Giving Back

You smoke 'em, we plant 'em. Proudly partnered with **Trees For The Future** ([www.Trees.org](http://www.Trees.org)), for every Tree-Rolls® product sold, one tree is planted to help keep our planet green and fertile, while helping to provide sustainable food sources for communities in need.
